GMT curbside consultation
in glaucoma 49 pdf - Type
1 diabetes is a chronic
illness characterized by the
body's inability to
produce insulin due to the
autoimmune destruction of
the beta cells in the
pancreas. Onset most often
occurs in childhood, but the
disease can also develop in
adults in their late 30s and
early 40s. Type 1 Diabetes
Mellitus: Practice
Essentials, Background ... -
Hypertension affects
approximately 75 million
adults in the United States
and is a major risk factor
for stroke, myocardial
infarction, vascular disease,
and chronic kidney disease.
